**Attachments:** projects FY2019.xlsx

Forgive me. I am so far removed from the customers now, that I have a hard time identifying which projects are for the states themselves, not internal to EPA.

Please look at this list of Projects from FY19 and highlight which additional ones are of interest. I highlighted the NDEQs and the Lorenzo one.

I should add for FY19 only... eventually I think they may ask for this quarterly incase you want to set the script up so that we can repeat this every quarter.

**Subject:** Data pull for state data only

I need a data pull for only State projects, where we have analyzed samples for the state.

The Info I need would be analysis type, number of samples, and project/program supported broken down by State

I think this will only be the quarterly NDEQ samples, ASR 8209 (corn samples for NDEQ) and the Missouri samples (Lorenzo ASRs 8337, 8378)
